OSLO[®]
ACRYSOFT
GLASS LAMINATES

Founded in the year 2014, Oslo is now one of the most trusted brands for interior products in India we started with manufacturing of PVC edge banding tapes & within a short span of time oslo has become a household name and first choice of architects, interior designers, oem's and builders and wholesalers and retailers. The complete provided range of products are manufactured with high precision utilizing qualitative raw materials and ultra-modular techniques. Moreover, the provided range of Products is delivered at clients end within the assured time frame.

OSLO is now presenting glass laminates in the market in the name OSLO+ ACRYSOFT laminates, it's the first unbreakable glass laminates in India.

These Laminates comes in Ultra High-Gloss Finish in various range like ultra gloss, Metallic, Marble Finish, Wood Veneers, Mirror Finish and Natural Solid with an exclusive feature of ANTI-SCRATCH (6H) surface compatibility which gives your Home Interiors an extra-ordinary reflection. Our Laminates comes with many exclusive features like Anti-Yellow Technology, Extreme Shiny Surface and Water-Resistant.

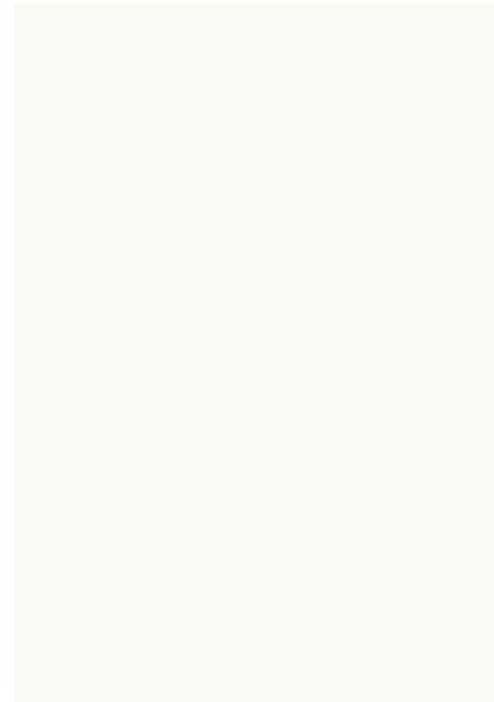

Sheet Size : 2440mm x 1220mm | Thickness : 1.5mm (± 10% to 15%)

DURABILITY & STRENGTH

Our Anti Scratch Laminates are extremely sturdy and durable. They can withstand heavy loads easily.

WATER & STAIN PROOF

Treated with a special coating on the surface, our 6h Anti Scratch Laminates are water proof as well as stain resistant.

TERMITE & BORER FREE

Our laminates are specially treated to ensure they remain termite and borer free for several years.

LIGHT WEIGHT

For ease of use and effortless installation, our range of laminates have been developed in a way to keep them extremely light weight.

IDEAL FOR VERTICAL APPLICATION

Our range of laminates has effortless and exceptional adhesion properties, which allows it to be used in vertical applications.

Applications to use

Kitchen

• Worktops • Tables • Doors • Cabinets Trolleys

Bathroom

Worktops • Shelves • Cabinets

Furniture

Healthcare Wall Lining And Horizontal Surfaces

• Cubicles Lockers • Trolleys

Commercial Hospitality & Restaurant

Tables • Counter Tops • Doors • Cubicles • Lockers • Cabinets • Wall Cladding & Partition

Cleaning & Maintenance

- Do not place any hot substrate or cookware directly on laminates, we do not recommend laminates on table top.
- Do not use thinner or any harsh cleaning agent to clean the laminate as it can give damage to surface of laminate.
- Cleaning should be done with water along with a smooth cloth.
- Exposure to temperature above 30°C may cause damage to surface.

It is advisable to check the batch number to avoid color variation. OSLO is not liable for any complains if the product is not properly handled, installed, maintained according to the given guidelines. Kindly remove protective film after 7 days of installation of laminate sheet.

Cutting & Installation

- These laminates can be cut by standard wood working tools.
- Laminates can be easily pasted by using Acrylic to Wood Adhesives which are easily available in market.
- Clean the laminate and base substrate by soft brush or soft cloth before application.
- The pressing of laminate should be done from middle and move towards the sides and corners of laminate sheet.
- Sufficient pressure should be given to OSLO LAMINATES for almost 15 hours to get a good bonding strength.

Important Guidelines

To avoid Air Bubbles/Crack and Yellow Patch/Color Fading problems, follow the instructions

- Use of correct adhesive for pasting of laminates to avoid air bubble after installation.
- Make use of good quality and even base substrate (MDF, Plywood, Particle Board) as low quality products may absorb moisture in uncertain weather and then it loses moisture and creates air bubble.
- If the sheets are in roll form, Before application, they should be kept straight under pressure for minimum 48 hours for getting better results.
- Give sufficient pressure to laminate upto 15 hours to get good bonding strength and to avoid any bubbles.
- Laminate sheet should not exposed to direct sunlight to avoid the color fading and yellow patches.
- Do not use any harsh chemical or cleaning agent to clean the surface.
- Do not place any hot substrate or cookware directly on laminates.

Limited Warranty

Oslo products are tested to be reasonably free of defects, and when used and fabricated properly they will comply with applicable manufacturing specification within realistic deviations. we recommend customers to inspect properly before installing. Oslo warranty in on ways covers defects and no-compliance from or otherwise attributable it any other causes, including without limitation the following:

- Improper handling / transportation / storage of OSLO Laminates
- Improper installation of OSLO Laminates
- Improper or unintended usage of OSLO Laminates or transportation damage.
- Lack of or improper maintenance of OSLO Laminates
- Exposure to high temperatures
- There will be no guarantee or Exchange under any circumstances
- Color variations in products from different batches are possible
- We recommend using products from same batch to avoid color variations
- This brochure is for presentation purposes only. Actual color may differ
